

## VICTORY OR NOTHING

After decades of perfecting snowmobile racing, we changed the game yet again. The legendary ZR combines the CATALYST platform with multiple engine options, including our 599cc C-TEC2 engine as well as our all-new purpose-built 858cc C-TEC2 engine. Pair that with SLIDE-ACTION rear suspension and you've got yourself a sled with the ultimate adaptability, supported by unmatched control.

### STANDARD FEATURES

- Tether Switch
- Trail Seat
- ATACH Rear Storage
- Ratio Steering
- Standard Brake Disc
- Hand & Thumb Warmers
- Integrated Goggle Holder Design
- Sport Front Bumper
- 12V Outlet
