

Every Arctic Cat is designed in Minnesota and assembled
by American workers in the town of Thief River Falls.
That means your sled is built with pride,
right in the heart of snowmobiling country.

Snowmobiling is serious fun. Be sure to read and understand your owner's manual and please pay special attention to the safety instructions. Arctic Cat Inc. endorses and encourages the safe use of all snowmobiles. Be careful; you can get hurt. Wear an approved helmet and don't drink and ride. Be aware of natural hazards you may encounter, allow yourself plenty of room to safely stop your snowmobile under all conditions, and maintain your equipment. Your safety is in your hands, so take care. All scenes depicted or described in this brochure were performed by professional riders under carefully controlled conditions. Leave the fancy riding to the pros; they practice for years and train very hard to make it look easy. Never attempt to duplicate these maneuvers or encourage others to do so. We care about your safety and enjoyment of the sport. All materials and specifications are subject to change without notice. SNOWMOBILES

TROUBLE MAKERS

WE MAKE THEM FAST. WE MAKE THEM FUN. AND WE MAKE THEM TOUGH AS HELL.

WE'RE HISTORY MAKERS. TROUBLE MAKERS. AND MAKERS OF SNOWMOBILES

BUILT FOR INCREDIBLE ADVENTURES. THIS YEAR, OUR NEW BREED IS

BUILT TO DEFY EXPECTATIONS AND STAND UP TO ANY CHALLENGE.

ALL NEW

BLAST™ SERIES

MID-SIZED WITH A MEAN STREAK

With a lightweight, mid-sized chassis and the industry's first 400cc single-cylinder EFI 2-stroke engine, these sleds deliver a best-in-class power-to-weight ratio.

RIOT X WITH ALPHA ONE™

A CROSSOVER WITH AN X FACTOR

Last year, we started a riot, with the first true 50/50 crossover sled. This year, we're giving the RIOT X the ALPHA ONE Single-Beam Rear Suspension, letting you tackle even the most unforgiving terrain.

NEW MOUNTAIN MODELS

ALL HAIL THE KING

Arctic Cat® owns the mountain. Not only do all of our mountain models come with the revolutionary ALPHA ONE Single-Beam Rear Suspension, but this year we're adding ATAC™ Adjustable On-the-Fly Suspension to select models.

BREAKTHROUGH

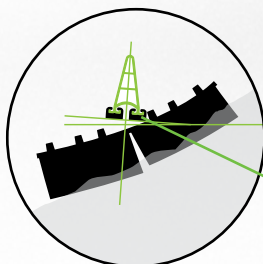

TECHNOLOGIES THAT SET RIDERS FREE.

Nothing should stand between you and the ride you want. That's why we take an unrelenting approach to uncovering new innovations that give more riders the freedom to go more places.

ALPHA ONE

SINGLE-BEAM REAR SUSPENSION

ALPHA ONE™ unlocks the mountain with the revolutionary single-beam design for incredible maneuverability. With minimal input, you get effortless deep-snow cornering, carving, side-hilling and more. You've never felt a ride like this.

Instead of using a traditional dual-rail suspension, ALPHA ONE has a single aluminum rail that runs right down the center of a Power Claw™ track, delivering agility that dual-rail sleds can't match.

The single-beam design of ALPHA ONE eliminates almost all snow accumulation that weighs you down.

ATAC SUSPENSION

ADJUSTABLE ON-THE-FLY SUSPENSION

The terrain can change quickly. Now you can be ready for whatever comes at you with ATAC™ Adjustable On-the-Fly Suspension. With the push-button command of three firmness settings, lockout mode and two individual rider profiles, you'll always ride on your terms.

ATAC's FOX® ZERO iQS shocks feature piggyback reservoirs, three compression settings (Soft, Medium and Firm) and two custom rider profiles.

Dual LED screens and handlebar-mounted controls make it easy to adjust suspension in seconds.

BLAST™

MID-SIZED

Armed with a powerful, industry-first engine and a best-in-class power-to-weight ratio, the new BLAST Series packs jaw-dropping features into a mid-sized sled. That means faster turns, easier rides, and fewer compromises.

- 400cc SINGLE-CYLINDER 2-STROKE EFI ENGINE
- NEW LIGHTWEIGHT MID-SIZED CHASSIS
- UNRIVALED SUSPENSION TECHNOLOGY
- ELECTRIC START

THE ONLY TRUE MID-SIZED SLED
BLAST is the right size for your next adventure: bigger than our ZR 200 youth sleds, but smaller and more nimble than a full-sized sled.

400cc SINGLE-CYLINDER 2-STROKE EFI ENGINE
With a design that's compact and lightweight (under 50 pounds), this EFI engine brings 65HP performance to every ride. Plus, a three-stage exhaust valve delivers improved throttle response. The result—a lightweight but mighty power source that fuels a ride like no other.

ALPHA

BLAST M WITH ALPHA ONE™ NEW FOR 2021

Loaded with the agility of ALPHA ONE, the new BLAST M is putting higher altitudes on notice.

- ALPHA ONE SINGLE-BEAM REAR SUSPENSION
- ARCTIC MOUNTAIN SUSPENSION
- CHALLENGER TRACK
- LIGHTWEIGHT ONE-PIECE TUNNEL

BLAST M 4000 SPECIAL EDITION
(WITH ALPHA ONE)

SLIDE-ACTION

BLAST ZR® NEW FOR 2021

Born with the bloodline of racing champions, the BLAST ZR trail sled is ready to defy a few expectations.

- SLIDE-RAIL REAR SUSPENSION
- TRAIL 6 SKI
- LIGHTWEIGHT ONE-PIECE TUNNEL

XTRA-ACTION

BLAST LT NEW FOR 2021

Handle every job on your terms, or just cut loose on the trails. The BLAST LT sport utility sled is designed to let you work hard and play even harder.

- XTRA-ACTION REAR SUSPENSION
- STANDARD TUNNEL RACK
- MID-HEIGHT WINDSHIELD
- RAISED SEAT

RIOT

CROSSOVER

Last year, we started a riot, with the first true 50/50 crossover sled that dominated from the trail to the backcountry. This year, we're giving the all new RIOT X the precision maneuverability of ALPHA ONE™ Single-Beam Rear Suspension, letting you tackle even the most unforgiving terrain.

RIOT X 8000 WITH ALPHA ONE NEW FOR 2021

- NEXT GENERATION 800cc C-TEC2 165HP-CLASS ENGINE
- ARCTIC MOUNTAIN SUSPENSION
- FOX® 1.5 ZERO QS3 OR ARCTIC CAT IFP 1.5 SHOCKS
- PROCLIMB™-7 62 MOUNTAIN SKIS
- ELECTRIC START
- NEW 2.6" POWER CLAW™ TRACK

ALPHA ONE

The single-beam design of ALPHA ONE delivers drastically improved maneuvering while eliminating snow pack that can weigh you down.

RIOT 8000

- NEXT GENERATION 800cc C-TEC2 165HP-CLASS ENGINE
- ARS™ II FRONT SUSPENSION WITH FOX 1.5 ZERO QS3 OR ARCTIC CAT IFP 1.5 SKI SHOCKS
- LIGHTWEIGHT CROSS-ACTION REAR SUSPENSION (EXCLUSIVELY FOR RIOT)

- FOX 2.0 ZERO QS3 OR ARCTIC CAT IFP 2.0 REAR TRACK SHOCKS
- PROCLIMB-7 62 MOUNTAIN SKIS
- ELECTRIC START

RIOT 6000

- 600cc C-TEC2 125HP-CLASS ENGINE
- ARS II FRONT SUSPENSION WITH FOX 1.5 ZERO QS3 OR ARCTIC CAT IFP 1.5 SKI SHOCKS
- LIGHTWEIGHT CROSS-ACTION REAR SUSPENSION (EXCLUSIVELY FOR RIOT)

- FOX 2.0 ZERO QS3 OR ARCTIC CAT IFP 2.0 REAR TRACK SHOCKS
- PROCLIMB-7 62 MOUNTAIN SKIS
- ELECTRIC START

ALPHA

MOUNTAIN

On the mountain, control is king. Which is why up here, Arctic Cat reigns, with the revolutionary ALPHA ONE™ Single-Beam Rear Suspension now standard on every mountain sled. For even greater control, step up to ATAC™ On-The-Fly Adjustable Suspension.

ALPHA
ATAC
SUSPENSION

M 8000 MOUNTAIN CAT ALPHA ONE
